PIN VISES

STARRETT
SERIES 240:

Smooth section on handle allows vise to be held in machine chuck or collets. Handle has hole through entire length to accommodate stock up to full size capacity so that long rods can be gripped close to the end. End of handle is knurled and has a smaller diameter than chuck which allows fast opening and closing and rapid rotation between the thumb and finger when used on small work. All four vises have heavy nickel plated finish.
