DIAL COMPARATORS
STARRETT SERIES 653, 653G:

Bench type comparator gages are ruggedly built for in-process and final inspection work. The Starrett jewel-bearing dial indicator is mounted on a beam that can be adjusted vertically on an upright post. A knurled thumb screw locks the beam in any position, and a sliding ring with locking screw (below the beam) permits swinging the indicator to either side. The ring also acts as a safety device, preventing accidental dropping of the beam. Fine adjusting knob is located on the beam. Lever on dial indicator can be positioned for left or right hand operation. A ribbed, precision ground, cast iron base measures approximately 8" x 9" (200x225mm). A Grade A crystal pink granite base, 8" x 12" x 2" (200x300x50mm,) finished to an overall tolerance of .0001" (0.0025mm). Specifications common to both gages are: 9-1/4" (235mm) maximum vertical capacity; 5" (125mm) maximum throat depth; 1/2" (12.7mm) vertical adjustment of indicator. Any AGD dial indicator or AGD electronic digital indicator can be interchanged with indicators listed.

SELECT PRECISION MEASURING TOOL SETS

STARRETT SERIES 905:

- Set includes basic tools and test indicator for a wide variety of precision measuring.
- Furnished in attractive, protective case.

Set Inch (Metric) includes Starrett:

- No. T231XRL (V231MXRL)
1" (25mm) Micrometer with carbide faces and thermal insulators on frame.
- No. 120A-6 (120M-150)
6" (150mm) Dial Caliper.
- No. C604RE-6 (C635E-150)
6" (150mm) Spring Tempered Precision Rule.
- No. 711FSA (711MFSA)
LASTWORD® Dial Test Indicator with Universal Shank .001" / 0.01mm Graduation.

ELECTRONIC TOOL KIT
SERIES 725:

- RANGE: 0-1"/0-25mm**
MICROMETER FEATURES:
- 5 keys Positive-designed electronic micrometer
 - Large and clear LCD.
 - Absolute and incremental conversion.
 - Friction thimble.
 - Data hold and tolerance set.
 - SPC output
 - .00005"/.001mm

- RANGE: 0-6"/0-150mm**
CALIPER FEATURES:
- Rugged construction of stainless steel with no rack, no pinion, and no glass scale.
 - 5 Digit high contrast display
 - Inch / Metric switch
 - Floating "Zero" reference point
 - Resolution ± .0005" / 0.01mm
 - Accuracy .001"
 - SPC Output
 - Four way measurement
 - Includes: fitted case / battery
